

Thangram

Modular entry panels

Thangram is the new line of BPT modular entry panels, the first available for the new digital IP technology system (the XIP system) and the only one capable of unparalleled colour video quality. Thangram entry panels stand out due to their innovative and attractive design, slim lines, high performance and the possibility of installing any entry panel starting with just 7 elements. A new generation of entry panels, perfect for satisfying your desire to surprise and astound.

Front plate options
